

## Health and Safety Declaration

Dear Customer,

The safety and health of our employees, the statutory provisions for dealing with health and environmentally hazardous substances, and the regulations on safety at work make it necessary that the *Health and Safety Declaration* is filled-in for all returned products and critical provisions of material by customers that are sent to PreSens. We ask for your understanding that processing of your shipment without the presence of the fully completed form is not possible.

Please send in a completed copy of this declaration in advance by fax to (+49 941 942 72 111) or e-mail (info@PreSens.de) so that the information is available before the product arrives at PreSens. Another copy should be attached to the shipment.

Please note that incomplete information or a deviation from this procedure can lead to significant delays in processing.

The completed Health and Safety Declaration form is required for all shipments by customers (products to be repaired or inspected, return of rental equipment or products to be disposed of critical provisions of material etc.).

### 1. Customer data

Company/Institute: \_\_\_\_\_

Address: \_\_\_\_\_
